**“VIOLATION OF THE LEGAL INTEREST OR THE ENTITLEMENT”
AS A BASIS TO CHALLENGE THE LOCAL LAW ACT
OF THE AUTHORITY OF THE LOCAL SELF-GOVERNMENT UNIT
BEFORE AN ADMINISTRATIVE COURT**

The basic feature that is required in order to submit a complaint on the form of activities conducted by the public administration to the administrative court is the existence of a “legal interest”. On the other hand, the specific basis of a complaint to an administrative court on the act of a local self-government authority is “the violation of the legal interest or the entitlement”. The Author has analyzed the impact of the recent amendment of rules governing the proceedings before administrative courts on the understanding of the formula “the violation of a legal interest or entitlement”. The Author predicts that the concept of “the existence of a legal interest” and the concept of “the breach of the legal interest” will be subject to a gradual convergence.
